

ANUSA KHADKA

Full Stack Developer

+977-9813074929 • anusakhadka16@gmail.com • anusakhadka.com.np • Kausaltar, Bhaktapur

Summary

I am a proficient MERN stack developer with a track record of building innovative projects. I am a highly organized and skilled developer, especially in collaborative environments. I consider myself effective at simplifying complex technical concepts for all stakeholders. I am passionate about staying up-to-date with emerging technologies.

With proven experience in developing solutions like chat applications, food ordering apps, kistabandi, mahadeals, and many more frontend as well as full-stack applications, I can become the ideal candidate to contribute to your team's success

Experience

DynoTech Global
Full-Stack Developer

Lokanthali Bhaktapur
03/2023 - Present

- Successfully led the team to develop multiple websites including **Dynotech global's portfolio website** to enhance the online presence and improve the brand image.
- Integral part of the developer team that developed **DynoAcademy**, an e-learning platform
- Integral part in developing an Human Resource Management application '**chibiHR**'.
- Managed and executed client projects, such as **kistabandi.com** and **panifilter.com**, showcasing effective client relationship management and project responsibilities.
- Initiated and developed projects like the **food ordering app**, which required acquiring new users and maintaining relationships with both customers and restaurants.

Projects

Kistabandi.com

Developed and managed the website to help business maintain their customer relationship

DynotechGlobal website

Lead the development of the company's own portfolio website to increase the online presence

maha.deals

Created an full-stack web application using MERN Stack technology to create ecommerce website that deals with redeeming and claiming coupons and gift vouchers

DynoAcademy

Integral part of the developer team to develop an e-learning platform, 'DynoAcademy'.

ChibiHR

Developed HR managing application as the company's product.

Chat Chamber

Used technologies like firebase and ReactJS to create chat application
